SquidBooks is an online science literacy supplement proven to boost academic language and science achievement, especially for students with disabilities, students learning English, and students reading below grade level.

Teachers love SquidBooks because it is simple to personalize science instruction. Students love SquidBooks because it's fun to engage with just-right resources.

SquidBooks was founded by a middle school teacher to make science inclusive and accessible for every learner. SquidBooks has won awards from the National Science Foundation and National Institutes of Health.

## SquidBooks includes:

- Over 1,000+ differentiated science lessons
- NGSS-aligned games, vocabulary exercises, diagrams, graphic organizers, articles, videos, and more
- Automatic grading
- Real-time, intuitive reports
- Professionally translated Spanish content
- Integrates with any LMS
- Full subscription provided until the end of next school year (June 2023)
